Editorial...

दानोपभोगरहिता दिवसा यस्य यान्ति वै।
स लोहकारभस्त्रेव श्वसन्नपि न जीवति॥

“A person who passes his days without donations and enjoyments

Is like a blacksmith's bellows, he breathes but does not live.”

Executing Panchsheel dream is the real capacity of our leaders which comes true to a celebration soon...The stunning kick start of this year brought us too many dreams in our mind so the responsibility. We members are glad to have such responsibility as we are capable of fulfilling it. Talk of the month was heard from extraordinary guest speaker Dr. Javeed Nayeem in the joint meeting. Cheering our president to concentrate on New Membership and New Club development, as we are the **force united** in the diverse profession (unity in diversity).

4-Way Test

Of the things we think, say or do,

1. Is it the Truth?
2. Is it fair to all concerned?
3. Will it build goodwill and better friendships?
4. Will it be beneficial to all concerned?

PANCHSHEEL PARK

A DREAM WITH INSPIRATION!!!

Panchsheel Park has a rich history of its own to conceive and follow. The facts of the history of Panchsheel Park are vivacious and inspiring.

It was during the Past President **Rtn. Dr. Aprameya Raman's** year that a few of our dynamic members including Rtn. N.S Anand, Rtn. N.P. Vishwanath, Rtn. B.M Nagesh, past member Rajesh Babu, Rtn. Rajendra Hubli, past member Narendra, Rtn. Dr. Aprameya Raman, Rtn. Sureshkumar and few others took a daring step and formed an association named “**Rotary Central Associaton**” – RCA. This association was formed to community services in the form of training and also technically to purchase the land from MUDA.

Past President **Rtn. N.S Anand's commendable job** made us to get the land from MUDA. The great Idea to construct a building came true in the Centenary Year of Rotary. The Brilliant Idea of Pancheel Park was conceived and **formulated** by our past member **Narendra**.

The team of Centenary year consisting of the entire board decided to construct a meeting place as a centenary project. And the project was executed in a **Record time of 23 days**. The challenging supervision of this first phase was taken by **Rtn. A.R. Ravindra Bhat and Rtn. NP Vishwanath**.

A very important event during the construction was “**KAR SEVA**” by our **members and Inner wheel members** wherein each member participated in **actually laying bricks by their own hands**.

The Panchsheel project was constructed during the year 2004-05. The first phase was also completed during the same year. The built-in area of the building was 1200 sqft (30 X 40 Ft). With **AC sheet roofing** and it was executed **under the leadership** of ROCEM President **Rtn. Sudheer Bhat** and Secretary Rtn. **AR Ravindra Bhat**.

History continues in the next bulletin...
